

Beautiful Design Comes to Life

Display OLED

OLED (Organic Light Emitting Diode) technology has great advantages: lightness, flexibility, definition, wide viewing angle, excellent contrast and extended temperature range.

Fully customizable

The graphical interface is fully customizable to customer specifications, we also collaborate with design and graphics professionals who can join the development chain and support all activities related to the aesthetic aspect of the interface.

"Simplicity and clarity Great design comes from these two things"

All formats with inch sizes and pixel resolution available.
Do not hesitate to contact us for samples or further information for
customizations.

We have different formats and sizes, some examples:

128x64px 0.96 "

128x64px 1.3 "

128x128 1.5 "with gray scale for better definition

128x128px 1.18 "round with gray scale for better definition
